

PHYSICAL CONFIGURATIONS

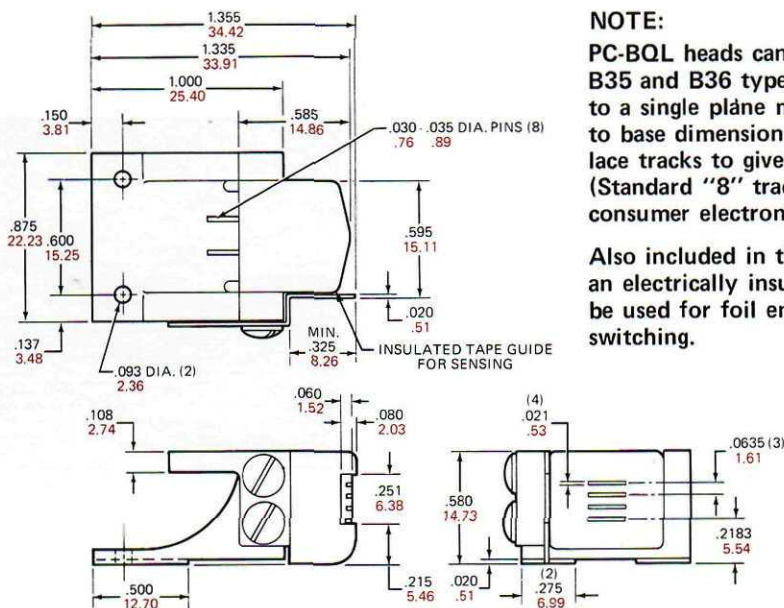

BASIC HEAD CONFIGURATIONS – NO MOUNT

NOTE: Heads are shown no mount, however all standard "B" case mounts are available.

PC-BQL WITH PRECISION MOUNTS

PC-BQL WITH PRECISION B36 MOUNT

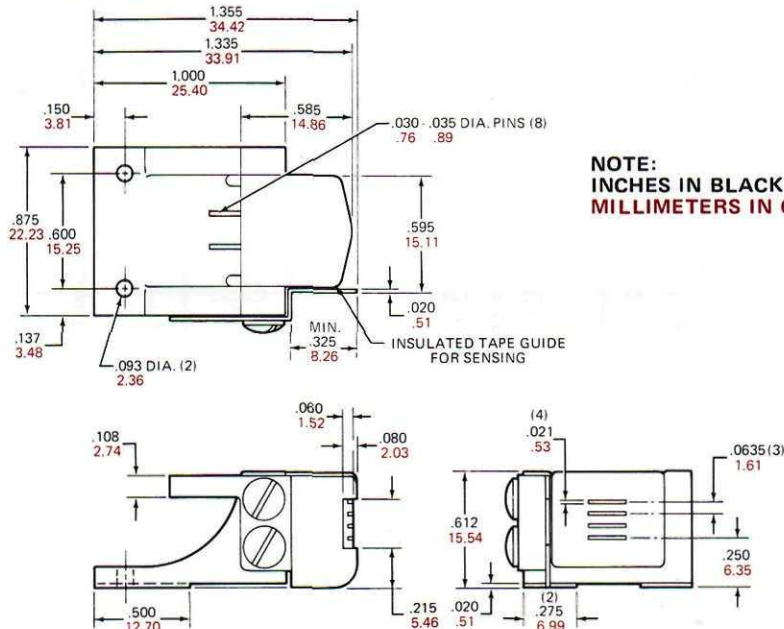

NOTE:

PC-BQL heads can be supplied with precision B35 and B36 type mounts for direct mounting to a single plane mounting surface. The track to base dimension is precision ground to inter-lace tracks to give 8 tracks on 1/4" tape. (Standard "8" track stereo or quad used in consumer electronic cartridge equipment.)

Also included in the B35 and B36 mounts is an electrically insulated tape guide that can be used for foil end of tape sensing or track switching.
